

Dear customer,
Many flashlights could rework after some cleaning. We suggest cleaning the following parts with alcohol soaked cotton swab before return us.

2. Some Fenix flashlight could not turn on, please use a forceps and insert in both of the two holes inside the tail cap and turn clock wise.

If it can not be solved and it turns out to be a warranty case please send the product back to:

YonC Trading - Chui
RMA – „your order no“
